

PHIL DINH

DATA ANALYST

Sydney, Australia | phildinhdata@gmail.com | 0451 840 818 | [LinkedIn](#) | [GitHub](#) | [Website](#)

SUMMARY

Data Analyst with **3+ years** of experience across retail, education, hospitality, and marketing. Experienced in translating stakeholder requirements into data models (entities, attributes, relationships), designing and optimising data warehouses (storage and compute cost) with Kimball methodology and database engineering techniques (partitioning, indexing, normalisation). Skilled in building and optimising Excel (VBA) and Power BI reports (Advanced DAX, VertiPaq engine).

TECHNICAL SKILLS

BI & Analytics: Power BI (DAX, Power Query, data modelling), Tableau

Programming: SQL (PostgreSQL, SQL Server, MySQL), Excel (VBA), Python (Pandas, PySpark)

Cloud & ETL Tools: Microsoft Fabric, Azure, AWS, Databricks, Snowflake, Airflow, dbt, Docker, Git, GitHub (CI/CD)

AI Tools: Claude Code, GitHub Copilot

WORK EXPERIENCE

ETTASON | Demand Planning Coordinator | Sydney

Jul 2025 – Present

- Collaborate with sales teams across 4 channels, operations department, and interstate stakeholders to gather reporting requirements, consolidate datasets, and validate data accuracy across 5 offices.
- Automate extraction, transformation, and validation of datasets from 5 states in inconsistent formats, including Dynamics 365, email, and shared files, using Excel (VBA), Power Query, and Python, **replacing manual processing** and loading clean data into the warehouse.
- Maintain and optimise the data warehouse on-premises by updating column constraints, data types, indexing, and applying Kimball methodology and medallion architecture, then redesign the gold layer by eliminating redundant joins and replacing views with pre-aggregated flat tables, reducing Excel report load time from **4 minutes to 30 seconds** and Power BI refresh from **30 seconds to 5 seconds**.
- Develop and deliver **15+ Power BI and Excel** reports for 5 offices, optimising from the engine level (VertiPaq, Power Query, **DAX**), tracking product performance, forecast accuracy, stock allocation, and demand stimulation across 3,000+ SKUs and 50+ suppliers.

MENTORME | Data Analyst & Mentor (Part-time) | Sydney

Sep 2025 – Apr 2026

- Designed and delivered a lakehouse in Microsoft Fabric (notebooks, pipelines, and copy mode) with medallion architecture, Kimball methodology, and database engineering techniques to store data from the company's AI website, powering Power BI reports and **providing a practical environment for mentees**.
- Designed and delivered a 12-week analytics curriculum covering hands-on practice with Power BI (DAX, Power Query), Excel, and SQL from gathering requirements and transforming data to building and publishing Power BI reports in Microsoft Fabric.
- Developed and delivered **3 Power BI** reports optimised at the engine level (VertiPaq, DAX, data storytelling) for internal use, tracking student demographics and CV performance, directly informing marketing strategies and product development decisions.

PTE MASTER | Data Analyst | Sydney

Feb 2024 – Jun 2025

- Collaborated with senior analyst, marketing, and academic teams to gather reporting requirements, define North Star metrics, and validate data accuracy across student performance, engagement, and page visit behaviour segmented by cohorts and demographics.
- Accessed gold layer datasets in Azure Databricks, independently built views for reporting and pivot tables for ad hoc analysis across student performance, scores, and 4 PTE skills, and connected Power BI via Databricks SQL Warehouse to deliver **10+ Power BI and Excel** reports across multiple departments.
- Analysed student skill performance segmented by cohorts and test modules, identified low-performing sections across listening, reading, speaking, and writing, and recommended targeted course adjustments that improved average skill scores by **5%**.

IGA SUPERMARKET | Assistant Store Manager | Sydney

Mar 2022 – Feb 2024

- Monitored sales trends and 6-month demand forecasts using the Metcash ERP, conducted regular stocktakes, maintained FIFO stock rotation, and refined weekly order quantities in collaboration with staff, reducing overstock and write-offs by approximately **20%**.
- Managed end-of-day cash reconciliation and sales reporting, ensuring accuracy across daily transactions and escalating discrepancies to management.

McDONALD'S | Operations Analyst | Vietnam

Apr 2020 – Sep 2021

- Collaborated with stakeholders to develop and deliver **5+ Power BI** reports tracking **30+ operational metrics** across cost, sales, people, and customer experience, segmented by region, manager, and store levels, contributing to a **20%** improvement in customer experience metrics.
- Analysed store performance across regions and management levels to identify lowest-performing locations, and prepared datasets using Power Query (appending, transforming, and restructuring data) to ensure clean, reliable inputs for reporting.

PROJECTS

Australia Laundry Sales Dashboard (2024–2025) | Power BI, DAX, Power Query | [Link](#)

- Analysed 1M+ transactions and built dashboards to identify sales trends, inventory gaps, and underperforming regions and products.

Retail (FMCG) Data Pipeline | AWS, Snowflake, dbt, Python, SQL, Power BI, Airflow, Docker | [Link](#)

- Developed an end-to-end data workflow to prepare retail data for Power BI reporting and support scalable, data-driven insights.

EDUCATION

Data Analyst – Analytics Engineering Bootcamp | Udemy | Dataexpert.io | Jan 2024 – Present

Master of Marketing | University of Wollongong | Feb 2023 – Oct 2023

Master of Supply Chain Management | University of Wollongong | Oct 2021 – Nov 2022

CERTIFICATIONS

DP-700 (Microsoft Fabric Data Engineer)

DP-600 (Microsoft Fabric Analytics Engineer)

PL-300 (Microsoft Power BI Data Analyst)

Databricks Data Engineering Associate
