

PHIL DINH

DATA ANALYST

Sydney, Australia | phildinhdata@gmail.com | 0451 840 818 | [Website](#) | [LinkedIn](#) | [GitHub](#)

Data Analyst with **3+ years** of experience across retail, e-commerce, FMCG, and fast food. Experienced in delivering Power BI and Excel reports for end users across senior, manager, and executive levels, translating business requirements into clear performance tracking and operational visibility. **Building small, purpose-built infrastructure that powers Power BI and Excel (VBA) reporting solutions**, giving internal departments fast, self-served visibility into sales and operational performance without adding load to core IT/data systems.

TECHNICAL SKILLS

- BI & Analytics: **Power BI** (DAX, Power Query, data modelling, Power BI service), Tableau
- Programming: **SQL** (PostgreSQL, SQL Server, MySQL), **Excel** (VBA), **Python** (Pandas, PySpark)
- Cloud & ETL Tools: Microsoft Fabric, Azure, AWS, Databricks, Snowflake, Airflow, dbt, Docker, Git, GitHub (CI/CD)
- Forecasting Tools & ERP: Anaplan, Microsoft Dynamic 365, Metcash ERP

WORK EXPERIENCE

ETTASON (FMCG distributor) | **Demand Planning Coordinator** | Sydney, Jul 2025 - Present

- Prepared and maintained demand planning data in **Anaplan**, including item setup, data updates, and rolling forecast inputs, monitoring forecast accuracy (MAPE) and contributing to monthly IBP review and sign-off meetings.
- Collaborated with sales teams across 4 channels, operations department, and 5 interstate stakeholders to support the S&OP process, gather reporting requirements, consolidate datasets and forecasts, and validate data accuracy across 5 offices.
- Developed and delivered **15+ Power BI (DAX) and Excel (VBA)** reports for 5 offices, tracking product performance, forecast accuracy (MAPE), and stock allocation across 3,000+ SKUs and 50+ suppliers, contributing to roughly **10%** reduction in excess stock on hand.
- Replaced manual consolidation, transformation, and validation of inconsistent datasets from multiple sources (**Dynamic 365**, emails) with automated workflows using Excel (VBA), Power Query, and **Python**, reducing weekly report preparation time by **70%**.
- Maintained and optimised the data warehouse (**SQL**) by redesigning the gold layer using Kimball methodology, eliminating redundant joins and replacing views with pre-aggregated flat tables, cutting Excel and Power BI report load times by up to **90%**.

JUNG TALENTS (Analytics consultancy) | **Data Analyst** | Sydney, Feb 2024 - Jun 2025

- Collaborated with senior data analysts and external **retail clients** to gather reporting requirements, validate data accuracy, and deliver **10+ Power BI** reports tracking sales and operational performance.
- Analysed e-commerce order, sales, and revenue trends across categories, SKUs, and channels using YoY and MoM time intelligence, identifying a month-on-month revenue drop linked to stock-outs, and proposed improved stock allocation and ordering to address it.
- Analysed customer demographic and location data (city, age, gender) to understand where customers were based and who they were, supporting more informed channel and regional decision-making.

IGA (Grocery retail) | **Assistant Store Manager** | Sydney, Mar 2022 - Feb 2024

- Monitored sales trends and used 6-month demand forecasts generated by the Metcash ERP to refine weekly order quantities, aligning stock levels with anticipated demand and contributing to a **20%** reduction in overstock and write-offs.
- Conducted regular stocktakes and maintained FIFO stock rotation, coordinating with staff to ensure inventory accuracy and minimise spoilage and shrinkage across the store.

MCDONALD'S (Fast food) | **Operations Analyst** | Vietnam, Apr 2020 - Sep 2021

- Consolidated and analysed Target vs Actual performance across 20+ metrics (sales, cost, staffing, customer satisfaction) for 46 stores across 11 markets, using Excel, Power Query, and SQL to surface variance and flag underperforming locations.
- Worked with operations managers to develop and deliver **5+ Power BI reports** highlighting regions, supervisors, and stores missing targets, resulting in **20%** more stores hitting monthly targets within 6 months.

THEGIOIWHEY (Supplement retailer) | **Inventory Coordinator** | Vietnam, Feb 2019 - Mar 2020

- Logged and maintained inventory data in the ERP system, recording stock receipts and verifying deliveries against purchase orders to ensure data accuracy for downstream ordering and replenishment decisions.
- Organised warehouse layout and prepared outbound orders for dispatch, coordinating truck loading and delivery schedules to ensure customers received accurate orders on time.

PROJECTS

End-to-End Retail Analytics Platform | PostgreSQL, dbt, Airflow, Docker, Power BI | [Link](#)

- Built an end-to-end analytics pipeline (PostgreSQL → dbt → Airflow → Power BI) to track demand patterns across \$606M revenue, 144K orders, and 17.2K customers, covering 6 regions and 30+ product categories.
- Designed product-level and regional drill-through reporting comparing actual vs target orders, revenue, and return rate, surfacing underperforming products and regions for executive and category-level decision-making.

EDUCATION

- Supply Chain Analyst bootcamp | Udemy | Dataexpert.io | Jan 2024 - Present
- Master of Marketing | University of Wollongong | Feb 2023 - Oct 2023
- Master of Supply Chain Management | University of Wollongong | Sydney, Oct 2021 - Nov 2022
- Bachelor of Supply Chain Management | University of Transportation | Vietnam, Feb 2015 - Jul 2019

CERTIFICATIONS

- DP-700 (Microsoft Fabric Data Engineer) | DP-600 (Microsoft Fabric Analytics Engineer) | PL-300 (Microsoft Power BI Data Analyst) | Databricks Data Engineering Associate
